## METHOD AND SYSTEM FOR DIGITAL RIGHTS MANAGEMENT IN CONTENT DISTRIBUTION APPLICATIONS

## ABSTRACT OF THE DISCLOSURE

5

10

The invention described herein introduces a system which binds the content to a person or any other entity like a company. So duplication of the content and rendering of content is only allowed to a well defined number of devices. The devices used in a system according to the present invention are provided for playing unencrypted content as well. Thus, users are enabled to play their currently existing audio CDs with the same device.

that of an find him him the need in which he will
